Whether you're already ISO registered or considering it, 2015 will bring many changes to the ISO 9001 standards. Come learn about the implications these changes will have on your company, and how you can prepare for the transition.

In this 2-hour session you will learn:

1. Why the standard is changing
2. What are the key changes and how will they impact your quality system
3. How can you prepare to make the transition
4. When will the changes happen and how long do you have to transition

This introductory session will be taught by Jim Saropoulos, Principal at ExoLytic, Inc. Jim has 30 years of operations and quality experience in multiple industries from manufacturing, high technology, aerospace, telecommunications and ISO registration bodies. His background as trainer, consultant and implementer includes ISO 9001, AS 9100, ISO 27001, OHSAS 18001, ISO 14001, ISO 13485, TS 16949 quality system design and implementation.
